

Frequently Asked Questions

Below you will find questions, special requests and objections, and the ways we handle them.

1. **Has a website** – A website is like a business card in a pocket. You have to distribute it in as many places as possible. We are like a shopping mall – we bring traffic/audience. We will link the business page to the website as well. Our huge audience will see it immediately!
2. **Does Google ads** – By joining us we help the business website climb up to the first page. Google and Yahoo work on a couple of things; content and seniority. Businesses need to have as many pages in as many places as possible and for a long period of time. We have been in business for over four years and generate traffic, which helps the ranking of our advertisers.
3. **On Yahoo local free** – If a business is linked to the Internet with us, eventually it will be on Yahoo free at some point. The more places a business is on, the better chance they have to climb up to the top pages.
4. **Wants to wait till website is up** – When a website is ready, we will upload it and link it. In the meantime, our platform provides a business with a full page ad about services and products, photos, map and a link to an email. Changes and updates are free all year round. We have copywriters that will put it together within 2 days - we hire only professional technical consultants and copywriters to prepare the page.
5. **How do you know it works?** – Our system allows an advertiser to monitor any email that comes from our system and can have a web-design or hosting company provide them with the number of visitors they get from our pages.
6. **Free trial** – We currently offer 3 month, 6 month and one year packages. It's better to be on the Internet for as long as possible. People want to see a business when they need the service.
7. **Wanting feedback from our clients** – We are happy to provide letters of recommendations from our clients and even a couple of leads that our advertisers have recently received through our system.
8. **A guarantee** – We guarantee exposure, hits and response. We cannot guarantee selling leads, but guarantee traffic.
